

# Physical Security Management Suite

## Provides Improved

- Force Multiplication
- Lock Down Control
- Multiple Scenario
- Multi Mission

## Improved Force Multiplication

Officers and responders control multiple physical devices with a single action

- Lock down one or many egress devices in a single action. Choose single (1), Main (2), or Circle Of Protection (COP)(3) actions
- One person performs the functions of many. **Time saving steps that can save lives**
- Patented Lock Down Control (LDC)

## **Increased Situational Awareness**

**Trusted Sources** automatically notified. Officers and Responders continually informed with exact times and locations of control actions performed keeping your **Trusted Sources** on the same page at the same time automatically.

Integrate **First Alert** devices (4) **BlueLight** and **Emergency** phones to increase **Situational Awareness** automatically

## Multiple scenario - Multi Mission capabilities

Link one or many **Physical Control** or **Sensor** devices to enable automatic response capabilities with automatic **Notification**

## *Physical Security Management Suite*

**First Alert** - for your entire organization

- Blue Light, Emergency phones...
- Students, staff, faculty...

**Physical Control**

- Doors, gates, turnstiles, elevators, escalators, lights, sound, cameras...
- Single, Main (*Local Multiple*)
- COP (*Local and Global Multiple*)

**Sensors**

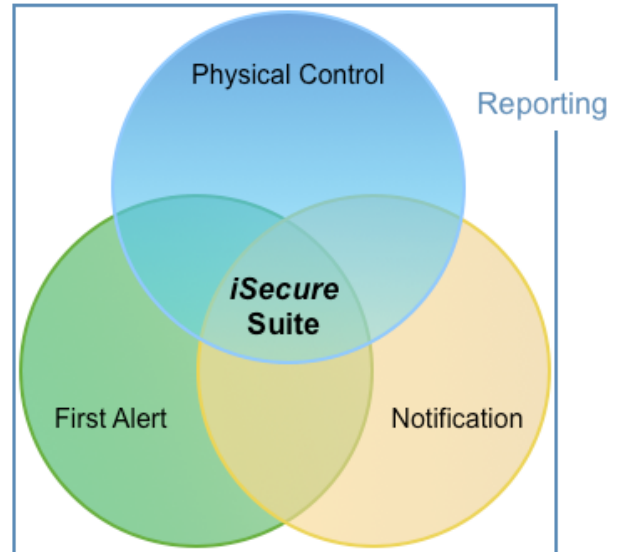

- Bio metric, vapor, level, fire, CO2
- Initiate automated actions

**Notification**

- Automatic notifications (Email - Text) to Secured Personnel
- Directed notification to defined groups

**Reporting**

- Provide unsurpassed capabilities for mid and post incident report needs
- A few simple steps, seconds to perform
- Facilitate ease of reporting for all integrated functions

## *SCG Physical Security Management Suite*

A **First Responder, Public Safety, Force Multiplier** and **Improved Situational Awareness** system utilizing existing infrastructure to provide integration of disparate systems delivering superior performance and response capabilities.

*First Alert, Physical Security, Notifications and Reports*

*All Seamlessly integrated*

*All At the Tips of Your Fingers*

'The next evolutionary step in Enterprise Security Solutions'
