

### About SCG:

SCG performs many IT, network capabilities that include design, implementation, and support of but not limited to:

- MDF and IDF
- L1 - L3
- Ethernet, Fiber
- DNS, DHCP, LDAP, RADIUS, VPN,
- NAS file services and more
- Integrated physical security (Cameras - Egress ...)
- Telecommunications (Cisco, Sangoma, Digium, Switchvox)
- EV Charging and Solar design
- Consultation
- Implementation and administrative work.

We have received awards, letters of appreciation, testimonials and case studies as a result of the work we have performed.

Clients include ATT, AO US Courts, ePlus, Ronco, multi Tennant doctor offices, multi state recycling company, multi state sporting apparel and equipment company, attorney firms, and supporting local faith organizations. We can add several patents and copyright as well.

SCG is a Federal and multi state registered SDVOB. You will not only be fulfilling Federal and State requirements but most importantly you will be obtaining 'Best In Class' capabilities.

Contact me at your earliest opportunity with any questions as we work on a strategy to provide needed support and improvements to your IT needs. Our capabilities mean we do not point fingers we simply get it done.
